

# PANTHER SCRUB

## *WITH LIQUID GRIT OR DRY GRIT*

### ◆ **STRONG AND FAST HAND CLEANING**

Texas Refinery Corp's history dates back to 1922 when our company started as Panther Oil & Grease Co. in Fort Worth, Texas. The City of Fort Worth also has a history and legend of the panther, dating back to the era of the Wild West, so the name Panther Scrub seems perfectly fitting for its strength and speed like the panther cat is known to be. When you have a job to do, you want a hand cleaner that is strong enough to clean quickly but does not damage your skin and Panther Scrub is your answer.

### ◆ **CONTAINS NO SOLVENTS**

When working on equipment or in a shop, you clean your parts with strong solvents, so why use the same things to clean your hands? Many competitive products on the market are formulated with solvents, which do help cut through the grease and grime. However, they continue to work on your skin by stripping away the natural oils and tearing up your hands.

Panther Scrub is not made with harsh chemicals; instead, it is formulated with detergents and soft abrasives that will cut through the grease and grime, leaving your hands clean and protected.

### ◆ **THE DIFFERENCE IN DETERGENTS**

Solvent-based cleaners can remove grease off your hands but remove the natural oils as well. After doing so, it then tends to leave a sticky or slimy film on your hands, and many times you need to wash again with plain soap to remove the sticky/slimy film. This film can cause build-up in drainpipes.

Panther Scrub will do an excellent job of removing dirty build-up on hands, even inks and some paints, but through a process called emulsification. This process is designed to wash away all the unwanted build-up without damaging your skin. The detergents in Panther Scrub break down the oils into a stabilized emulsion where they cannot separate. This means your skin will not only feel better, but the stabilized emulsion will be beneficial to your drainpipes as the grease and oil is carried all the way to the water treatment plant.

### ◆ **THE "EXTRAS" IN PANTHER SCRUB**

Panther Scrub's formula is unique and formulated to clean up your hands from heavy-duty mechanic work, a weekend of mudding or from your weekend of fishing at the lake.

Panther Scrub contains three types of soft scrubbers made from natural minerals, which vary in size and texture. During the washing process, these scrubbers even change shape as you wash, to get into pores and really clean your hands.

Burning when you have nicks and scrapes on your hands is a thing of the past since no solvents or citrus chemicals are used. Panther Scrub has a neutral pH of 7.2 so it will not irritate the abrasions on your hand. Non-greasy moisturizers are also added to the product to help soften the skin and keep it from cracking. Panther Scrub has a fresh smell, kills odors and rinses completely.

## ◆ VERY COST-EFFECTIVE

You will find either version of Panther Scrub will be more cost-effective than the other commonly sold hand cleaners on the market. With Panther Scrub, a little dab will do 'ya! Scoop or squeeze out a nickel-size amount of the product (approx. a half teaspoon) onto your hands.

The Panther Scrub with Liquid Grit was tested in our laboratory by exposing the product to multiple freeze/thaw cycles and the product's consistency was not altered in any way, making it an outstanding product for year-round use.

## ◆ TWO VERSIONS

Panther Scrub is offered in two different versions to satisfy those who like a more liquid version, or a dry grit version. Panther Scrub with Liquid Grit is currently packaged in 16-ounce squeezable bottles and the Panther Scrub with Dry Grit is packaged in 16-ounce tubs for scooping the nickel-size amount. Whether working hard or playing hard – protect your hands with Panther Scrub!

<b>Panther Scrub with Liquid Grit</b>	<b>12-16oz. containers</b>	<b>Product Code 103311-5000</b>
<b>Panther Scrub with Dry Grit</b>	<b>12-16oz. containers</b>	<b>Product Code 103312-5000</b>

---

### Directions for Use:

**Wet hands with water, apply a nickel-size amount of hand cleaner, rub hands together to lather, rinse for clean hands**

---

One of our Customers stuck his finger in the Panther Scrub with Dry Grit to see what it felt like and rubbed a little between his fingers. The Power Scrub removed grease and grime.

Even without water, the customer was very pleased with how Panther Scrub with Dry Grit cleaned the grease and grime from the tips of his fingers just by rubbing some on.

A loyal customer to our grease and gear oil, this customer was very happy to give us feedback on how Panther Scrub works.

The result was Panther Scrub with Liquid Grit did an outstanding job! He could not believe how well it cleaned his hands in just one washing.

Panther Scrub Hand Cleaner with Dry Grit is packaged in 16-ounce containers as shown, and there are 12 containers per case.

Panther Scrub Hand Cleaner with Liquid Grit is packaged in 16-ounce squeezable containers as shown, and there are 12 containers per case.
